

With all of the problems in the world these days it is annoying to hear that the fcc is wasteing their time messing with XM radio. I pay my fee monthly and enjoy all of the features that the service supplies. It is basically the same as cable or sat. TV. They have channels that you can pay extra to hear cuss words, they also have weather and traffic updates. Find something important to do with your time and Leave XM radio alone. Rep. Joe Barton , Rep. John D. Dingell , Rep. Fred Upton , Rep. Edward J. Markey, Rep. Gene Green ,Rep. Chip Pickering are probally just killing time avoiding the real issues that ameriaca and the world are facing. These old men probally listen to AM radio!!!
